

Picture Littlehampton

A Community Photography Challenge *Ideas and Prompts*

TAKE PART

We're looking for fresh perspectives and alternative views of Littlehampton. Submit your photographs to be in with a chance of being part of a new exhibition this autumn.

There are three winning categories - most inventive, most colourful and most surprising. Our jury will select the winners, to be exhibited in Littlehampton Museum in October.

Use the ideas here to get you started and see where it takes you..

ADD WORDS TO YOUR PHOTOGRAPHS

How does your favourite place make you feel?

Was there something special that took place there?

Write a word or a sentence and include it in the photograph.

PUT YOURSELF IN THE PICTURE

Photograph yourself in your favourite place.

Can you become part of the landscape and move your body to become part of the architecture?

Be playful! Experiment and try out different ways of interacting with your favourite place.

Take lots of photographs, then choose your favourite.

FRAME THINGS DIFFERENTLY

Experiment with using frames in your photographs.

Play with finding natural frames in the landscape and environment around you.

PHOTOGRAPH UNEXPECTED OBJECTS

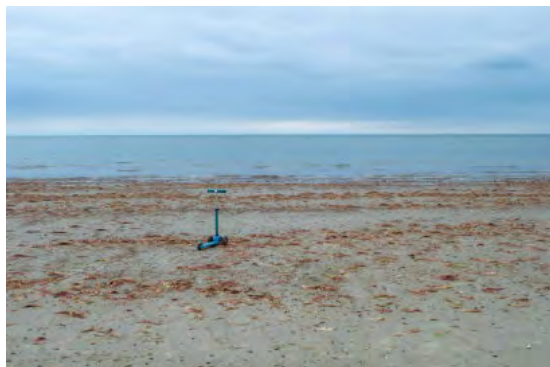

Look for objects that capture your attention.

Consider composition.

How will you frame the object?

Look out for colour matches.

SHARE MEMORIES

What are your favourite memories of littlehampton?

Take a printed photograph to your favourite place.

Use an image from your family album or place your mobile phone within the landscape and share your favourite memory.

CAPTURE MOVEMENT

Find moments of movement while exploring the town.

What happens when you move while taking a photograph?

Set your camera on a timer and run past the lens or shake your camera while taking an image.

PLAY WITH SHADOWS

Go for a walk with your camera when the sun is out and make a portrait of your favourite place in shadows.

What happens if you take a photo of the same place in the morning and the evening or throughout the day?

LOOK FOR NATURE IN TOWN

Look around you to see where nature and the town meet or clash.

Look for things growing in unusual places.
